BITTER FIGHT AHEAD.

Democratic Congressmen Preparing for a Walkout.

NEW RULES ARE UNSATISFACTORY

The Disposition of Montana's Four Senators Is Very Uncertain.

HUGE COST OF THE NEW NAVY

Canada's Commercial Polloy Regulated by Ours -Oregon Life-Raving Stations-The Customs Administrative Bill.

Washington, Jan. 24.—[Oregonian office, corner Fourteenth street and Pennsylvania avenue.]-A caucus of democratic members of the house to-night, Holman, of Indiana, in the chair, discussed the new code of rules now in course of preparation by the com-mittee on rules. Briefly stated, those that ere instanced by Cartisle as being particularly objectionable to the democratic minority, are the rules that do away with the old house calendar, leaving only the calendars of the committee of the whole and state of the Union; that making 100 a quorum of the committee of the whole; that re-establishing the old morning bour rule, when business must be considered in the order of committees' list and bills must be enrolled as pending until disposed of; that which fails to make privileged motions to adjourn to a fixed day and to take a recess. There was a hot discussion over the proposed changes, which failed to result in the advancement of any practicable scheme for amelioration of the repugnant feature of the new rules.

Contested election cases were then taken up, and it was generally agreed that the intention of the republicans is to unsent as many democrats, and seat as many republicans as will give them a fair working majority and insure a quorum in order to force through the rules. Although no formal action was adopted, it was understood among the democratic members when the caucus adjourned that this republican plan should be resulted to the ulmost, and the minority should use its constitutional rights to prevent its success. In other words, the determination is to fight the rules legitimately when the obnazious second tons are reached, and refrain from voting and leave the house without a quorum if an attempt is made to unseat democratic mem-bers before the rules are adopted.

Republicans and democratic senators are alike perplexed over the disposition that ought to be made of the half-signed creden-tials of four men! from Montana who ask to become senators. A delay in the consideration of the question has arisen. At the start. it was the intention of the committee on it was the intention of the committee on privileges and elections to meet at once and decide on a method of presedure. Senator Hour, however, the chairs will the committee, has been called aw, by sickness, and it was said to-day by the committee clerk that nothing would be done until he returned. That will not be until some time next week, at the enriest, and the oredentials of the four men such as they are will tials of the four men, such as they are, will de undisturbed in Senator Hoar's committee

A prominent republican said to-day that action of some sort was very desirable with-in thirty days, or during the lime the pres-ent Montann legislature is in session. If no action was taken before that time, then all four of the men should be sent home. Ques-tions would arise which would be more difficult to settle than any that are now in sight. Some take the ground that Governor Toole would have no right to appoint two men, as there would be no vacancies in the sense of that word which authorizes the governor to appoint. There are no unexpired terms. If this principle were carried out, the state would, of necessity go unrepresented until another legislature could elect. Others hold not only that the governor could appoint, but that if he did so and the secretary of state refused to sign the credentials of the appointees, a mandamus could be ordered to compel him to do soi. This would result in two democratic senators. While the republicans believe that the two republicans were legally elected and denounce the democratic frands in the election in ocratic flands in the election in Silver Bow and the partisan action of Gov-ernor Toole, the senate is too conservative to do anything that has even the appear-ance of rashness, and although the majority believe that Power and Sanders are lorgally entitled to seats, the republicans are not so bimily partisan as to seat men of their own party on imperfect credentials until it is plainly shown that they are deprived of perfeet ones through democratic fraud at the polls, democratic obstruction in legislative halls, or democratic gubernatorial bluff after the men were elected.

Representative Hermann made an argument to day before the committee on com-merce in favor of the bills introduced by him for life-saving stations and crews at the Sinslaw river. Tillamook bay and the Ne-halom river, the stations to be established on the Pacific coast, at or near each of the entrances to these rivers in Oregon. J. Ritchie, of Ohlo, appeared before the

ways and means committee to day and argued in favor of free importation of Canadian mineral ores and in favor of unrestricted reciprocity with the Dominion. The chairman, having ascertained that Mr. Ritchie was conversant with Canadian matters, inquired what the sentiment was in Ganada in regard to annexation. Mr. Ritchie replied that any sentiment could be found in Canada which anybody wished to lish for. There was a considerable sent-ment in favor of reciprocity, and by taking a proper course the United States could increase the sentiment.

Mr. Payne asked as to the feeling towards

the Butterworth reciprosity bill. Mr. Ritchie replies that the opposition in the Canadian parliament, numbering about onethird of its membership, had adopted the Butterworth bill as its platform. In reply to a question by Mr. Cartisle, Mr. Ratone stated that American interests in Canada were very large. Mr. Cartisla asked whether Canada would give the United States free coal if the United Blates give her free iron.
Mr. Ritchie replied emphasically in the affirmative. Hon, Benjamin Butterworth, of Onio, addressed the committee in support of his bill for reciprocity with Canada.

Vice-President Huntington, of the Central Pacific railroad, to-day addressed the senate select committee on Pacific railroads in ex-planation of a plan which would be accep-table to the Central Pacific railroad for settiement of its indebtedness to the governmoni. His statement was practically a recapitulation of the longer one made by him yesterday to the house railroad com-

LINE OF BATILE SHIPS.

The Senate Committee Will Adviso Expenditure of an Engineers Sum.

Washington, Jan. 24—The senate committee on naval affairs held a meeting today, at which, after considerable discussion, the committee decided upon a policy which will govern it during this congress in the work of building up the navy. This is, in brief, that great line of battle ships like the English Benhow should be constructed at Euglish Benbow should be constructed at once. Senators Chandler and McPherson. however, are not in accord with the decision reached, and majority and minority reports will be submitted to the sende. Senator Stanford is not wholly committed to the decision reached.

The naval policy board appointed by Sec-retary Trucy made recommendations for building ten first-class battle ships of 10,000 tons each ; eight first-class; of 8000 each; twelve second-class, of 710) ions each; three third class, of 6800 to 7500 tons, five third-class, of 6000 tons; six barbor monitors, of 4000, tons; 6000 tons; one cruising monitor, of 3500 tons; clover rams, of 2000 to 3500 tons; nine thinatmored cruisers, of 6250 tons; four first-class protected cruisers, of 7500 tons; ten first-class protected, of 5400 tons; twelve second-class protected, of 3600 to 4500 tons; six third-class protected, of 1700 to 8190 tons; ten gun vessels and dispatch boats, of 850-to 1500 tons; sixteen torpede cruisors, of about 900 tons; three torpede, depot and artificers' sulins, of 5000 tons each; 101 torpede boats,

900 tons; three torpede, depot and artificers' ships, of 65 tons each, making r total of 227 ships, of 65 tons each, making r total of 227 ships, of 65 tons each, making r total of 227 ships, of 610,035 tons, at a cost of \$310,515,000. This total includes \$67,355,000 transpended, and authorizes the expenditure of \$281,550,000.

When the committee proceeded to consideration of the recommendations the issue was raised whether it was advisable at this time to begin with the construction of the immense line-of-battle ships proposed, including harbor defense monitors. There are forty-four of these vessels, and they would cost \$202,490,600, white-the-other vessels logether would cost only \$147,05,000. Chandler and McPherson urged that the United States should continue the present policy of building fast cruisers and defer building buge line-of-battle ships until we had a larger number of cruisers, or there was some exigency calling for their construction. On this issue the committee divided, the majorky agreeing with the policy of the-board, and Haio was instructed to report favorably the bill introduced by him several days ago, embodying the recommendations of Secretary Tracy.

IN THE HOUSE,

The Columbia Setty Appropriation In-stated on Customs administration Bill. Washington, Jan. 21—On motion of Grovenor of Ohio the house insisted on its amendment to the senate bill for removal of obstructions from the Missouri river, and

a conterence was ordered. The house then went into committee of the whole, Burrows of Michigan in the chur, for further consideration of the cus-toms administra ivec bill. The pending amendment was that offered by Bayne of Pennsylvania, to section 15, providing that 'during the pending of any controversy or litigation about the amount of duty, the merchandise in question shall remain in the government warehouse and under control of the secretary of the treasury," etc. After government warehouse and under control of the secretary of the treasury," etc. After a lengthy discussion, in which McKenniand others favored the Bayne amendment, it was rejected, as was also a substitute for the whole section offered by Carlisle. This leaves the fifteenth section as originally reported, providing that the owner; consignee or the government, if dissatisfied with the decision of the board of general appraisers, may uppeal to the Federal circuit court, the court's decision to be fir al unless the judge thinks the question of such importance us to require review by the supreme court, when he may allow an appeal.

On motion of Breel inridge, of Kentucky, an amendment to the nineteenth section was adopted, providing that the section shall not apply to merchandine imported in covering, subject to a rate of duly equal to or granter than 60 per cent.

The committee rose and the house passed the joint resolution appropriating \$75,000 for a rublic building and clothing for Indians at the La Pointe agency.

Peters introduced a bill to premote the interest of agriculture by irrigation; referred; adjourned.

WASHINGTON NEWS ITEMS,

Seattle Land Office D cision Affirmed, Washington, Jan. 21. - [Special Telegram.] George Chandler, first assistant secretary George Chandler, first assistant secretary of the interior, to-day affirmed the decision of the Seattle land office is the rejection of J. M. Gulbraith's declaratory statement in filing on land in sect.ons 17 and 9 of township 37, range 5. The tract he wanted was 176 acres, and, owing to the section lines, he could not divide it so as to give him the precise amount to which he was entitled. The local office would not allow him to file on the entire lot. The secretary says there was no other course for the local office to pursue.

pursue.

FOUL INIQUITY AT SPOKANE

Albany Pervant Girls Do a Ble Buriness in Bobbing Their Employers The Borthern Pacific's Branch From Seattle

SPORANE FALLS, Jan. 24. [Special Tolegram.] The remains of James B. Oglesby, the colored waiter who was murdered at Colvile Wadnesday, by William Holtsstein, will be brought here for burial. Oglesby was well known in this city, having taken part in a number of amateur sparting contests. He was married here three years ago, and his mother and wife both reside

here.

Later reports of the murder show that it was particularly atrocious. When Rolizstein returned with his Winchester, after a dispute over a bill in the restaurant, Oglesby officed him \$5. saying: "I'll give you this it you won't shoot me." Holtzstein replied: "D—n your five dollars," raised his gun and fired when within three feet of his victim. After firing the shot he walked out, but was soon after placed under arrest.

REGARDLES OF HIS MORALS.

Preacher Tewhshury's Danctor, at Scat-tic; Maries Her True Lave, SEATTLE, Jan. 21.—[Special Telegram.]— Quite a sensation was caused to-night by the clopment and marriage of Kate Tewksbury, daughter of Rev. George A. Tewksbury, pastor of the Congregational church. Rev. Tewksbury came to Scattle about six months ago and his daughter soon became a leader in church work. On December 16 she met William E. Stevenson, a young man, local car account-ant of the Northern Pacific railroad. It was a case of love at first sight. After a brief courtship Stevenson was accepted by the minister's daughter.

About this time members of the church About this time members of the church colled on the preacher and told him that his daughter's woose was not a man of good moral character. This crused the reverent gentleman to show Stevenson the door. A secret marriage was immediately playined, and this afternoon a license was procured and the couple were made one by Justice John F. Miller, at the house of a friend of the bride. Mr. and Mrs. Stevenson had left be city for Victoria before the father was apprised of the marriage. The elopement caused a great sensation in the church, and is the talk of the town to might.

FOUL CRIME AT SPOKANE.

A Procuress Eldnars and Ruins a Hand some Young Indian Girl. Speakar Fills, Jan 24.—[Special Telegram.]—The Beer cage, which has been the ruling topic of conversation here ever since the murder, was temporarily forgetten today, when another sensation was developed, Some time since Maggie Wilson, keeper of a notorious, hower in this city, visited the notorious house in this city, visited the Indian reservation near Lewiston, Idaho, and selecting a strikingly handsome and well-developed half-breed girl aged 14 years, brought her to this city, promising her a nome in a respectable family. On arriving here she tried to force the girl to lead a life of shame, but the grif firmly refused.

Finally, finding that force would be necessary, the Wilson woman held the poor girl whiles man outraged her last night. The Wilson woman has been arrested and denied, buil, A man named George Presten was arrested to night for participating in the crime, but says he knows nothing about it. notorious house in this city, visited the

SERVANT GIRLS WHO STOLE. Their Trunks Full of Flunder-Two Young Men Implicated.

Aleany, Or., Jan. 24.—[Special Telegram.]

—Two girls, Kate and Hattie Mattoon, of Drain, Or., who have recently been engaged in doing general housework for several families in this city, started a few days ago for their home, leaving two trunks to be sent after them. Shortly after their departresidence of F. J. Miller, where they were residence of F. J. Miller, where they were working, and an examination of the trunks showed that the two girls had stolen \$200 worth of jewelry, slik-dresses and clothing from the different families where they had worked, which they had packed in the trunks telters were also found in the trunks written from one sister to the other, showing that they had been carrying on a systematic robbors for months, haring taken several trunkfuls kome previously.

Letters of the most incriminating nature were also found from Waiter and Alonso Smith, of Ashland, Or., who visited the girls here. The authorities at Drain have been notified to arrest the girls, unless they return the stolen goods.

A meeting of citizens was held at the operations this evening and steps taken for the establishment of an orphans home in this city.

SEATTIE BELL KLAYERS' STRIKE.

Owners of Buildings Pay the Advance Demanded by the Mon.

SEATTME, Jun. 24.—[Special Telegram.]—
There are no new developments in the bricklayers' strike. Both sides seem to be waiting expecting every day that the other will
make a concession. The contractors have
not yet sent East for non-union men, as
threatened.

threatened.
Work on the Occidental and Butler blocks work on the Occidents and Butler blocks is going on, notwithstanding the strike, there being some fifty union men laying brick. The contractors refused to set men to work, so crews were put on by the owners of the buildings. It looks as if this rule will be carried out on other buildings, as the owners say they can better afford to pay extra for labor than have building operations delayed.

THE NORTHERN PACIFIC BRANCH. It Will Parallel the Southe, Lake Shore & Lasters to the Consider Boundary.

TACOMA. Just 21.—Special Telegram.—H. S. Huson, principal assistant engineer of the Northern Pacific, has set the wheels moving towards the construction of the Northern Pacific branch from Seattle to the international boundary. He hav telegraphed for an engineer to take charge of a party to be started out as soon as he can get be started out as soon as no can ger-the party together, which will be-only a few days at most." OLD RUICE SWINDLED

His Trusted Clark and a faither Get 2 way With \$100 000 Chicago, Jan. 21—the Mail says. It is reported on the board of wade that the settling clerks of B.P. Hutchinson, by a series of cross trades made to certain brokers, have swindled him out of a very large sum of money. The amount talen is reported to have been as much as \$100 000.

The Lieur of Journal cars that Hutchin son, while admitting the unbezz ement de son, while defining the objects either the thousand dellars. The Journal says bowever that the is but a continuation of a system of robbity whereby Old Hutch, has been yield a deformed by two years. His trades non the board are sail to be very lossely mana, ed and this recounts for the ease with which the stealing was done. The Journal asserts that the job was just up by Thomas Stoner, one of Hutchmaons most trusted clerks and Bertking attrusted clerk of Broker W. P. Dickinson. Stoner would mark up a ground the conveydored. clerk of Broker W. P. Dickinson. Stoner would murk up an amount be considered safe from \$160 to \$5000 against Hutchinson and to the result of W. P. Dickenson. King would make no corresponding entry on Dickinson scheet. The amount would be duly paid into the Gearing house, but of course not collected by Dickinson and it would be returned to Hutchinson as uncollected when Stoner would go to Hutchin son's eashier point out the debut on the sheet and have a check drawn for Dickinson King would convert this into cash and King would convert this into each and divide with his partner in crime

Spalling the Evening Maal

An easy why to spoil the evening meal is for each member to tell the sad tale of all that has gone wrong during the day. To mention the disappointments and verytions to tell of the slights that were endured and to tell of the slight, that were endured and the effenses that were given and to lament over the results of this infelications combination of affairs is enough to counteract the refreshing effect with which the most generous and shifful housewife can load the table. Better but this complaining off until some other time. What is the best time for it, it is lirt do say. Perhaps an indefinite postponement would be a happy thing for all concerned. Half the things that we groan over to night will right themselves be fore to morrow night if we let them alone.

Hommopathic College A new building for the New York Homeo pathic Medical college was recently dedicat ed on the Boultward in New York city near San Brancisco, Jan 24—Snow which has recently fallen to an unusual depth on the foothills in the northern part of the state, is now reported to be giving way before warm ranes, and the Sacramento river and taibutaries are rising rapidly.

At Corning the water is running through the streets and flooding all the branements in the town. At Colusa the Sacramento river rose eight feet during last night and is still rapidly rising, while at Rad Bluff the river has reached the twenty foot mark rising at the rate of four inches an hour

Wrote His Own Funer d Sermon New York World, Ohis H Brown sr , an economic widower, 73 years old, who lived almost a bermit in a 78 years old, who lived almost a bermit in a cavite but in the village of Osseo. Minnesota, filled himself by firing three bullets torough his head. Of late Brown has kept a dary of his condition. The last of these notes bore the fint that he was about to take his life and gave directions for the disposition of his effects. The old man also wrote a funeral sermon several months ago, which he left in the light of the weighbor with the instructions to have it preached over his remains He was a carrenter by trade, and among the things about his but was a coffin, which he told others had been made for himself

Nervous people are usually in this state. Their periods of comfort are rare. Worned by trifles, sturiled it, a hight noises pestered by adhestion—usually the radical source of their woos—their existence is any thing but an enviable one. Host totter's Stomach Bitters is the nervine specially addited to them, as it therework in hor research. numbed to them, as it thoroughly in theorates the nervous system through the medium of improved digestion and assumilation. Chills and fover, kidney complaints, indigestion and costronoss are relieved by it.

Mrs Wiggers—What is that thing William! Mr Wiggers—Way, mother had a salem—well, ou know why that's my new dictating machine Mrs Wiggers—Oil I was afraid for a minute it was one of those type write s—Puck

POETI IND, SATURDAY, JAY, 28.

OLPGOMANA.

The Oregon City Irtopuge says that in ten 5c. re less than \$2000 fins been paid ont for tre lesses in that town and yet the com-paints have constantly increased the rate mirings some ratings are over byen cent

A correspondent of the Lexington Budget may. A pet tion has been circulated and signed by all except two minima territors of ten equare mites, asking that a no be established on the former site of the Al pine office. A remoder one has also been circulated by the postmistress at Alpine, asking that the assa of the petit oners be

The Astorian gets at the truth in saying there is but one cointion to the problem con-fronting the camers and fishermen or the Coumbin eight this seriou and that is a reduction of 50 per cent in the number of bonts on the river. Such action will result in the cock to the crimers and more earn this propagate to the men engaged in Sishing

We are informed says the Inte Moon tancer to it the ranroad track through the Bue and Cascade mountains is in worse condition than it has a yet been known to be fought in a b But and Cascade mountains is in worse condition than it has even been known to be to the first does bely a trein with passengers or frought may be wrenzed at any point without a moments warning. The Union Picitic is using here to them efforts to keep the road ones but this lean efforts to keep the road ones but this is almost impossible.

While I rank I amborth was driving across the river on the fee usar Nollin Thursday the horses fell through. He managed to seen himself and one of the un mals, but the other was carried under the see and frowned. A young lady had previou to seen in the sleigh with him, says the bath Oregonian, whom he fortu sately induced to walk across. Had he not done to was a mark across. Had he not done to both might have been lost in the

court to create a single road district from Dairy creek, just west of Hals bore en-inard to the Mutthomah county bore endured to the administration about four to five tubes wide. It is claimed that by putting all this territory under one officient man, it would secure more avstent in road work at less exponed and would scene better roads, it least on the main lines. It is at fined that the experiment is well worth

BASHINGTONI INA

tives a philanthropic tender like this is truly refreshing. It shows that the control of a big gembling tent has elevating tendencies of which the world has long remained in ig for the benefit of a skeptical world, ever

of which the world has long remained in ignorance.

For the benieff of a skeptical world, ever on the sleft to insconstrue the motives of mankind, the leave will state the cits in its simplest form. Mr. Buer, while in apartle mankind, the leave will state the cits in its simplest form. Mr. Buer, while in apartle many firstly mood, proceeds to plue, his at versary with bullets. Said adversary, in a moment of pique and perversity, his down in the show and expires, first taking the precaution, while-recling in the agonies of death, to throw a small stard cannon out into the street where it was not discovered and the termoon of the following day.

And here is where the high spirited magnaminty of Mr. Bear shipes forth the angletine light on a frosty winter right. With characteristic thoughtfulness and generosity he thinks of the widow, alone with her givel, and forthwith the sends her this remarkable ofter of huancial balm and support. No casket is too costly for the sailes of 'Big Mae", no floral wreath, or cross, or anchor oath le too callerate. If the widow so desire, the leftiest plumes shall wave above her husband's her, and if she wishes a brass band to head the faineral corrected well and good.

Our-esteemed fellow-cit? in Dutch lake has also diveloped the loftiest qualities of magnanianty. In the presence of eight all the batterness of the old Court of Alene icual has been forgotten. His purse is little we open to the necessities of the him before he became adequated and the right of the force a has caloboated upon this tour, it is not a viction of tenderal so became if the red of way it is not a correct the sories of granthing. If an existence of the necessation and tour, he had a correct the world should not be depreced in the tour, it is not a viction of tenderal so became it is now the settern reposets ed if the now define the fact, and know how to the on the first part of the broader it where the reconstruction of the deadle know to the court of the or wealth of the deadle know to the court of the or w

hed with the rose leaves of sweet charming the civil wounds of the deadly much the civil wounds of the deadly much tweets.

In this rea mixable of a of the brocher hood of min we are also liven within our feet less of in the south in qualities of god. It was so that it gives the determined to be up? Innerst But whe chart and the in our planes of god? Let us much a death in an emplayed admiration more the tender use play of solicitude shown to these his mindea gostiemen about the bier of his Mac."

the company's engagement in san Francisco.

This company will open the new operations on Monday, February 3, and the indications are that there will not be a sent unsold in the house. As the house approaches completion it, legins to assume a form and appearance of legance that will be a revelation to our theater-goors.

The abelion sale of set is on Monday aftermoon, at Alasonic hall, for the opening night, will, in all probability, be liberally attended and rentize final contey.

APPEAL POR INPANTS' CLOTHING.

It may not be generally known that the divent of a new-born habe at the Refuge Home is not an uncommon occurence. It riono is not an uncontrain occurence. It is often the case that a young girl taken in and cared for with a view to reforming her becomes a notice in a few days or a few weeks. Such cases are usually destitute of clothing, with no provision whatever for the helpless infunt so soon to be placed in their arms. I don't not but there are many philauthropic and benevolent ladies in our city who would be glad fo contribute clothing or money for the above object. There is at present pressing and mimediate neal for every article necessary to be placed upon a young babe. Any-desiring to respond to this appeal will please send their nontributions, if in colling, to the supply completice. Mrs. J. C. Carson, Kinedeenth and J. s. zeers, or Mrs. John Williamson, 83 Thirteenth street. If the contribution is in money, please send to the treasurer, Mrs. J. C. Moreland, 255 Bieventh street.

GLOVE CONTEST TO-NIGHT.

Choyneki and McLarney Propose to Settle the Question of Superiority.

Bath in Fize Condition-A Aguare Match and Ro "Pake" Is What the Public Expec!-Their Records.

The give contest between Joe B. Cheyn-ski and James McLarney, the 'Irish Giant,' will take place at the Mechanies' pavilion this evening. The pavilion will, no doubt, be crowded by lovers of the manly art of self-defence, and the friends and backers of the contestants.

It is expected, by the public that the contest will be a square one, having received every assurance from the managers of the pavilion and the principals themselves, that it will be such. Should the match prove a "fake," the sporting public—with the late Corbett-Campbell flasce still fresh in their minds— will doubliess make it so interesting for those responsible for the match, that they will find it convenient to leave for other parts. A public sentiment has been around parts. A public sentiment has been around among lovers of sport that will tolerate no more takes or impositions in the line of ath-letic sports.

There is, however, very little reason for There is, however, very little reason for anticipating anything except a satisfactory of termination of the contest. As the men will use soft gloves, and the contest is for extientific points, there is no reason why each should not make the very best chowing of his powers, and demonstrate his superiority over his opponent. Neither of the contestants has ever participated in fake exhibitions, and the referred is known to be a man of fairness and honesty in sporting circles, so that nothing except a maisfactory contest that nothing except a satisfactory confest

so that nothing except a satisfactory contest is expected.

Considerable betting has been done, and it is expected.

Considerable betting has been done, and it is considerable betting has been done, and it is considerable to the california Athelic Cleb, and by a number of First street merebants. Mc-Larney also has many friends, whose confidence in his ability is shown by the pool of several thousand dollars which they have subscribed to back him. Both Choynski and MeLarney are in fine physical condition. The former will enter the ring at 165 pounds and the latter at 198.

THE "GLANT'S" RECORD.

and Mellarney are in fine physical condition. The former will senter the ring at 125
pounds and the latter at 198.

THE "GLANT'S" ERCOUR.

Junes Melarney was born in county Wepford,
Ireland, on July 27, 1857. The eams to this country about hine pears ago and made his home in
Chleago, where when purely an amateur he met
and defeated Patry Cardiff.

THE REMEDY OF JUSTICE

A good many people are trying to so ve A good many people are trying to be ve the race proofen with words. Thousands of words, unreserved by a single idea, are poured into the ears of unresisting audiences and spread before patient readers from the track of the work. The day to day und week to week existence of an unsolved problem affords an opportunity for the word-monger too pre cious to be neglected from pu pet and patform from press and forom the ever listing flow goes on Problems are not solved this way. Mere words have no magic power to more the world Result are brought about, reforms are wre tell wre go are righted, by the force of id is ce at 2 d in act. I ven so tremehant in mellect as brigging 1 worlds, account result the and district free so tremenant in much leed as benaror I signifies cannot resist the possenous influence of a word mongering meneration. He deals in word——even as Di. Joseph Holts-but with this ufference that if rugh the thickest cloud of his variant erup on glumers the spark of the deal at must vitalize any effort to solve the rice problem, to give it force and tracked for a token proper of the race richin. Senator Ingails would shoot ty to the untried remedy of justice. Clearly on a renewded this idea is the ley which unto be the whole problem. Uncompre-mented justice is a barren word, it ofters flowever clearly Senatur I reat s has worked or t the idea in his own mind by printed oh fails to give it all the caten ion of at hit is capable. Justice for the blocks as definends in a sounding period without showing how it is to be achieved, any more than Senator Du ler demonstrates how his med scheme of derortation as to Le realproperty and the property of t

nounced the determination to eliminate the negro as a political and soc al factor in their states Discu sion of the wisdom or justice of this determination is as barren as frant c app at to the Southern people to change it. The thing is not only determined upon but done. The negro no longer counts in the political and soc at life of the South The thing done cannot be un done, without such an exercise of iederal power as would amount to a denial of local autonomy to the Southern states Neither Senator Ingails nor any one else proposes to and rule them from Washington for the greatest benefit of the greatest number of their people. That time is gone, that exper-tunity lost. It will never return, except un der similar circumstances. The policy of federal control of local affairs in the South was abandored fitteen years ago and will never be resumed, unless to cure a worse evil. The race troubles in the South are not yet grave enough to warrant the substi not yet grave enough to warrant tution of federal control for outwardly orderly and proverous local governments.

They may becomeso when benator Ingalls's nightmare dream of negro insurrection is realized and the strained social structure of the South begins to fall to pieces of its own weight But it is not necessary to cross that bridge till we reach it Such justice to the blacks of the South as Senator Ingalis demands seems unittainable at present The states will not grant it and the l'ederal government cannot enforce it by means commensurate with the good to be accom

But there is a broader measure of justice But there is a broader measure of justice to the people of the whole country. North and South black and waite which it rests entirely within the power of the 1 ederni government to grant and which it is a breach of duty to withhold The national congress is charged with the enforcement of the Federal constitution, and the constitution declares that, whenever suffrage is denied to any class or number of persons in a state those persons shall not be held as part of the population in determining the busis of representation in the bouse or representatives and in the electoral college are to enforce this injunction is a denial of justice to the people of the whole country. as flagrant as the denial of justice to the blacks by the people of the South It is unjust to the citizens of every other state in the Union to have the representatives and electors from the South nearly double weight in the house and the electoral college It is up just to white members of the minority party in the South to give the me the people who have disfrinchised them the right to vote for them. It is a wrong all around, and it is a wrong for which congress is responsible because it has the power to remedy it. A simple law to enforce the fourteenth amendment to the constitution, by declaring that persons whose votes are excluded or cast under du ress shall not be counted in population when making up the basis of representation ander the eleventh census would be a compiete remedy There is no dispute of the denial of political power to the blacks in the South. The Southern people confers justify the policy, and the people of the North have learned to hear the confersion without indignation, if they do not accept the justification The thing is done in the south and accepted in the North The only the justification. The thing is done in the bouth and accepted in the North. The only thing that remains is to adapt our national political system to it. We have decided to let the South disfranchise the negro, because we can't help corselves. We need not let ber vote for him That is quite within our power to prevent. It is better to do things that can be done than to talk eternally about things that can't be done. Here something procticable Let us stop appealing to God and the Southern people to do justice to the negro and go to work by con stitutional legislation to do justice to the whites of the whole country ly putting an end to the present unfair and fraudulent end to the present unfair and fraudulent proponderance of the South in the house of representatives and the electoral college THE MAN WITH A GUN !

On the 21st inst the passenger train from Sin Francisco to Los Augeles was robbed by two masled men, who stopped the train plundered the express car and went through the presenters. The frequency of gests the inquity whether any man or any number of men are breve except when the bave the drop on you There never was a train robbed that did not probably contain a good meny man also carried pistols and were farrly good shots but the robbed train never m kes a fight. I we bold men can rob n whole train, simply because the average man who carries a gun never d respect unless he feels sure that he has the drop It was not Aways so on the Preific const

for the time was when brave mon summoned eastend and delver by bugands nade a faut for their property and used their arms to efficient purpose. There was a C pt in Day's who when push no through Mexico. to Colliornia with tarte compenious at an early day was attacked by a degan Mexican bandits from ambush. His companious fell at the first fire, but Day's with a revolve in each hand made a disperate fall for his hite and property and won for he killed and stabled to d atm or find to put to fight the whole band of cutthroats and he made his fight on open ground where h assailants had entire advantage. The difference be tween Davis and the modern man who tweet Davi and the motion and and are faith is the very race question that now prehow to shoot but that he had sents the most difficult problem yet encoun-

the courage to shoo. When we remember how easily a half dezen brave men in a cur could "stand off with their pixtols two or three robbers, or how stout a defense a well armed explores near locked up in his car, could make to does seem as if Discovery and explore to a factor of the order of the only true solution of these car robberies was that the nerve and course e were all with the robbers that the robled were maily cowneds who wou'd never dure use firearms unless they 'had the drap" on the robber Probably the majority of men who were born and bred west of Massi suppliars familiarity than the robber than the rob narwith the use of firearms, nobaby the m jority of them on long journeys carry firearms and yet two or three robbers can p u ider a whole train

These facis suggest the frontry how many men who 'carry a gut have any courag-of the old fashroned sort, then an armod m n was we not out unsbered stood up and faced a robe; with his own too. The olast ge robl ries were d I rent but even in those days, when taken it a dind vantage the Buck II its street even male many a splendid be it. Why proper arting of their empoyers it does seem as II a rurand com many ought to be aid form is

RUSSIAN PACIFIC RAILWAY

The Russian government will begin next spring to build its great railroad across Sheria. The work will start simultaneously at Vindivostock, on the Pacific, and at the present Lastern terminus of the Russian railroad system The working purties will approach each other from the East and the West just as the working part as of the Umon Pacific started from Omaha at the hast to meet the working parties of he Central Pa cibe that were pushing up from California to clasp hands with them at Ogden This great railroad when flaished will be 4500 miles in length and the natural obstactor to its construction are so modificate that the engineers ostimate of the cost and equipment of this radical is but \$2.0 000 000. It can be completed in three year, and a helf and the government expects that I will pay a fair interest on the it vestment. The transinterest on the investment. The trans Casplan railroad in the first year of its completion from the Caspian sea to bamarcand paid all its running expense and wear and tear, and then had over \$110,000 left in its treasurs. The building of this railway is of yeast consequence to the world for it will shorten the time between the Asiata shores the lacific and Europe and America It takes forty data now to go from London to leking by way of biz When this great bibirian raiway is in shed we may rench leking for New York in tw nij five dijs seven days to London bluen days to Vad tostock ad three thoses to Licking. When the Mexican railways me ex-inded through central and bouth. America to Buchos Ay co-and tiere in railway from British Coumbin to Libria & strat. It will (p) side to beat Nelly By off at mound the world.

Dr Holts elfort to see in the arm 1 h of the colored ruce to America a lightly favo trade a divine plan for the tion and redemption of terrace does not strike uses sound or wise it would rinke God the author of evil, for slavery was in tise futer aby the sum of all villatine and among the remoter consequences of this part of the d wine plan in which Dr Hol, has so much

may jet up et and defent the whole experiment. Moreover, divine wisdom great i ensity have chosen a better nian for theya. tion and reden plots of the colored ries.

Discovery and exportion in Africa with cententian among cylzd nations for possession of the country and colon z ton thereof all or which is now in progress will do more for the colored rice than ever has been done or ever can be do se for it through the in ourses of slavers and its consequences

Dr Roese gives the resulted of he enforced. the results of his examination into the disense in Norway to show the beneficent effects of isolation in diminishing the sufferings of the level and checking the increase of their numbers the Norwegian govern ment buying decreed in 1885 the absolute and compulsory isolation of all lepers

A PRACTICAL ANSWER

A man named Brown delivered a lecture in Chicago recently on the so called 1 ind question. His thems was opposition to private ownership of land and be argued that man in the audience exhed 'How is the government to get the lind from the present owners?" The speaker answered There are more people who do not own land than there are landowners and I tather guess they could take it Some advecute the taking by one method some by noticer at the Chicago Tribu can were Mr Brown and the whole school of philosophers to which he

whole selected of philosophers to which be beings in this short way viz. If Brown will look at the census of 1887 he will find some line catting statistics as to the number of landowners in America. He will find that there were 42% (00 persons the owned furnishes will find that there were over "050 000 agricultural laborers a large number of whom should not have been clausified as such being the some of farmers who are working for the old man till they settle down for themselves or until he dies and they enter to a the inheritance of his broad acres. Of these there must have been at least 700.000.

Bearing in mind the further fact that nearly that there are thousands of letouners great cities Philadelphia alone hav or 8,000 freeholders It is safe to estimate that there

Farmers

Owners of c tj and villago lots

7 500 900

There were ten years ago 11 000 000 voters It appears therefore that 7500 000 of them were land holders while at the most but 2 500 000 were landless voters Is Mr. Brown so ignorant of Americans as to be

never that 3,000 000 could tax away their lands from the 7,000 000 notes without the consent of the latter? Has he seen among the 3,000 000 any traces of that fauntical and dearmined spirit which makes men undortate desperate enter prises in the face of certain defeat?

OFFENSIVELY OFFICIOUS

The recent address issued by the W C T over the signature of Miss Willard censuring the delegates of the Pan American congress for indulgence in wine at their meals and advising them to study the benefits of prohibition as witnessed in eight states of the Union shows to what Imperti nent folly a really sensible and kind hearted woman can be driven by a course of system atic training in an impractical school con-trolled by a single idea. The purity of Miss Williard s life and her earnestness of purpose command universal respect and it is proba ble that her follies of judgment are dealt with more lemently than those of any other woman in the land would be yet it is im possible not to feel that she has exceeded the limit of the wide margin so generously given her by the officiousness of her advice t who are at least her equals in years and ex

The intermeddling some weeks ago of the W C I U in the terms of Vice President Motton's Washington hotel lease though it did not result in anything more serious than the pained surprise of the good sisters of the convention and the heart felt grief" of at Governor St John it discovered a weak new in Miss Williad's public work that her more practical friends found it difficult to defend. The most that they could do was to hope that her folix in this direction had spent itself and that the mistake would not

be reponted

This last effort of officious casin the nome of temperance is however much more of fensive that the other since at a resummento or trees men who are guests of the nation and to point them to simplored sources of knowledge the study of which will as their central humbly hope conduct to an im Froyan ent in the u mords

building
OTHER BODIES IN THE BOIES

Thirty people, man women and children, were injured by burns cut; or bruises and it is possible that other bodies may be found in the ruins of the building to meer ow.

The explosion as near as can be ascertained resulted from the accumulation of natural gas in the cellar of Merroti's house, it having leaked in from a street main. Besides destrowing the house and the block next to it is house on the other side of the alley was completely wrecked.

a few minutes after 5 o'clock last evening Frank Dean, a laborer employed at Weidler's mil, was instantly killed by a passing 1900-

when the whistle blew at 6 o'cleck for the When the whistle blew at 0 o colock for the mill-employes to quit work, there was the widel general rush among the men to get awar from the scener of their day's labors, and hurry to their various homes. Dean arms the isdetracks, which, at that the screen was the state of the scener. and arrows the sidetrocks, which, at that the care in a gross the sidetrocks, which, at that place, are lined with long rows of freight and stock care. Falling to hear or see the Northern Paolite yard engine, which was soming down the track at a rapid rate, the unfortunate man jumped directly in front of the locomotive. He was knocked down and dragged nearly 300 yards before the engine could be brought to a halt, when it was included to the back was broken and the gine could be brought to a broken and found that his back was broken and body was trightfully twisted and lacerated, and almost severed in twain.

and almost severe at a twin.
Den has been employed only a short
time at the mill, and was a comparative
alranger. Where he came from for whether stranger. Where he came inde, was not ascertained, as no papers of any kind were found on the body. Dean appeared to be a man of about 25 years of age.

mar.0: none wyear.or ago.
The body was removed at once to the
graderisting rooms of Rolman & DeLin.
Greener DeLin will hold an inquest to-day.

THE EAILBOAD SITUATION. The U. P. Hopaful-The Morthern Open-The Southern Pacific Getting No Better Fast

Superintendent C. W. Johnson of the Bujernarament Union Pacific says prospects are good for breaking the blockade on this division at once. The Jule plow which was off the track is at work again and he hopes to have track is at work again and the hopes to have train in this morning. The weather has implemented all along the line and the hopes to have this division clear of obstructions at once. As to the state of affairs on the Short the nothing definite is known, but an end total the snow troubles must come soon, and the sooner the better.

A gentleman who has just arrived here At gentleman who has just arrived here from Whinipeg states that the line of the Canadian/Radific railroad is entirely free from snow blockades, and that the trains have run on time all winter, and not a train has been missed. From two to three cars loaded with immigrants arrive at Vancouver every day, who scatter off down to the Sound, and some come over here. They are much pleased with the treatment and accommodations turnished by the Cauadian Radific, and when they learn the state of affines on other lines congratulate themselves that they chose that route.

The Northern arrived yesterday afternoon shout 5 o'clock: The delay was caused at Radiana in transforring. All trains are reported at Helenn, Pasco and Tscoma on time.

THE SOUTHERN'S BLOCKADE. There is little hopeful in the Southern

VERY SHOCKING DEATH captendid condition, and business is moving alone with its usual necess is moving alone

FROM PORTLAND TO THE SEA. A Deep and Wide Cannuel Will No Doubt Soon Be Opened to the Pacific

Major T. H. Handbury, United States engineers, who has of argo of the government-works for the improvement of the Columbia river, has received instructions from the chief of engineers to take into consideration, and after sufficient study and investi-gation, to prepare and submit to that office a project, with estunate of cost, for making a channel from Portland to the ocean of sufient width to serve the navigation interests of the Willametto and Columbia rivers,

ests of the Willamutto and Columbia rivers, and at least twenty-five feet in depth, or to so great a lepth for navigation in the rivers as is expected to be obtained across the bar at the month of the Columbia when the jetty le completed.

This is very good news, and shows that the Columbia river is beginning to attract the attention which its importance deserves. It will take some time to urepare the project and estimate, but the channel is now in slam good condition, having a depth of twenty feet at low water, that there is but little danger of any impediment to the navigation of the rivers until such time as this project can be carred out. As to the cost, he idea can be formed at present. It is expected that the jety, whon completed, will no idea can be formed at present. It is expected that the jet w, which completed, will give a channel of at least thirty feet in depth across the brr, and while the cost of making a twenty-floor channel was trifling, the cost of a twenty-flive or thirty foot channel would be much more, but hey much cannot be to during the charis of the river have been examined and it is seen bow many cuts will be necessary, and how long they will be.

PASTE THIS IN YOUR HAT.

The Boundaries of the New Voting Precincts as Fixed by the Conaty Commissioners.

The county commissioners yesterday finished defining the voting precincts for the coming year. The ten formerly on the west side of the river have been increased to fourteen. Sheriff Kelly says he will have the polling places picked out in a few days. The following are the boundaries that have been established:

No. 1-Between E. Sleventh and the river. No. 2-Between At North West Park, E and the river. No. 3-Between Weshington, Fourth, A and the No. 5-Commencing at Fourth and Washington, north to A, west to North West Park, north to A, west to North West Park, north to urth and Washington, west to Eleventh, touth to Washington, east to ourth and Washington, No. 5-Retwoon Marrison, Tenth, Washington of the liver.

No. 6-Commencing at Teach and Marrison, No. 6-Commencing at Teach and Marrison.

and the river.

No. 6-tommencing at Tenth, and Morrison, north to the river, it may be river to Seventeech, (extended) spink to h, east to Fourteenth, south to Morrison, east to Tenth.

No. 7-all that portion of North Portland precinct lying west of North Seventeenth street.

No. 1-Between Taylor, Tenth, Morrison and 2-Between Main, Tenth, Taylor and the fiver. No. 3-Hotween Commbin, Tenth, Main and the river. No. 4—Between Mill, Tenth. Columbia and the

SCROOL BUARD IN SESSION.

Light Grist of Business Trapenoted Last Even-

Director George B. Durham called the school board to order at 7:55 last evening, in the absence of Chairman Thompson, who is still sick. So is Therkelsen, and Ludd and George made up the quorum.

Applications for rebate in erroneous

assessments were quite numerous and were variously disposed of. Double assessments are allowed, claims where no statement of

gation.
All number of excuses were granted to teachers for tartiness, occasioned by ill health and deep snow.
Ellen Berong and Theresa Schermerhorne resigned as teachers elect, and their resigna-

ous were accepted.
A lotter from C. A. Hesmer, expressing his inability to account the high school prin-cipalship, owing to another engagement, was read and placed on file. So was breder-ick G. Young's acceptance of the same posi-

was read and plated of the Sime position.

Mary D. Ingalia, Alice Huting and Elizabeth Waters upply for phoes as members.

Miss Sabin repected a beavy falling off in
attendance from sickness. One room has
seventeen against forty-eight four weeks ago.
Others are similarly depopulated. The
older scholars stiffer most. The examinations promise to be slimity attended.

Professor Gamenbein's room is to be
fitted up with gas, for the use of the High
School Debating Society, which meets Friday
evenings. The lawyers of the board view the
project with great favor.

Fred Bickell offers a peculiar petition. He
was in a lurry when he made affidavit to
his indebtedness, and instead of saying \$30000, \$10,000, and \$10,000 again, he said \$3000.
\$1000 and \$1000. The very material difference he asks the board to allow him. It was
referred to the judicary committee.

Email accounts, aggregating \$27.50 were
ordered purchased for the janitors who need
them.

Durham asked and received leave of ab-

Durham asked and received leave of absence for two weeks. Adjourned.

POR:LAND'S NEW NASSY.

Mr. George A. Steel Door Not Knew Just When He Will Stop Into the Postoffice.

Mr. George A. Eteel, the recently appointed postmanter, is just recovering from an at-tack of influenza, and is able to be about again. He has not yet filed his official bond. In answer to inquiries, he said yesterday: In answer to inquiries, he said yesterday:
I cannot tell how soon I shall assume the dities of my collec, because before doing so I am compelled to get my private business into such shape
as but to interfere with my public duty. In fact,
I am in-no special hurry to supersede Mr. Roby,
who is perfectly willing to romain in office until
the wenther grows more pleasant.
I have not yet decided as to what changes I
shall under. So far I have received more than 800
applications, but have appointed but two men.
Captain W.H. Convors, of Vancouver, will have
charge of the money order office; my chief deputy
will be Mr. A. A. Kruskin, and I have offered the
registry office to an agualty good man, whose
name I'd, rather rot, mention, because I don't
know whether he will necept.

Limble not: make, wholesale removels in the
minor derival department, because such a yourse
would impair the elleiency of the service, and I
would rather elevate it if possible.

THE PATTERDALE IN PORT. The Ship King Relect Sighted While Burning at Sen-Rough Wenther Encountered.

Upon her arrival at B street dock yesterday afternoon, a reporter bourded the ship Patterdale and fo and Captain T. S. Tupman one of the most agreeable men of his class. He gave a little of his experience during the 150 days of his yo rage from Antworp. Any. thing but pleasant weather was encountered Concerning the harning of the Britishlanin, King Robert, at sen, the following was acopied from the log: Bengaled Per Inset and lung bouldes, Red Laip aniworp August 20. On Notember & the Cross Cougo Syrup, Try It; 22 cents.

messed-through the Strait of LaMaire, and Horn was sighted the same evening, when Cape Horn was sighted the same creting, when the wind gave way to a cain. The next morning, November 3, a light breeze from the eastward aprung np, and at 9 A. M. we passed the British ship. King Robert on route from Gangow to Man Francisto. The ship was on tree and abandanced. We passed us on tree and abandanced. We passed us the cape as left would pormit, and can'dle see that the cap safety would pormit, and can'dle see that the cap safety would pormit, and can'dle see that the cap safety would pormit, and can'dle see that the cap the safety would prove the continue summe. We passed the safety would be safety be continued to the same afternoon, but a breeze from the weathward spring up, and by the day following it had increased to a gide. The weather continued stormy unit November 2!, when the wind veered to west southwest.

It will be remembered that the Patterdale was sighted off the bar nearly a week before the weather moderated enough to allow her to cross over. During the day January 14 the weather was unusually had. About 9 o'clock of the same evening, while the ship was under the lower maintopsail during a heavy squait, the sail, which was nearly new, gave war, and the wind blew nearly new for the form of the sail with the sea filling the docks continually. the weather moderated enough to allow her

TALE WITH A SHOW FIGHTER. Three of the Northern Pacific's Officials About

Mr. W. T. Small, superintendent of the machinery and motor power of the North-ern Pacific, of St. Paul, Mr. H. H. Warof Tacoma, muster mechanic, and Mr. F. N. Risteen, road foreman, with headquarters at Helena, are at the Esmond. They came in at 5 o'clock on the Northern. Mr. Risteen is the man who headed the party that opened up the O. R. & N. blockade five years ago, and tolls some very interesting experiences in lighting the feathery element.

experiences in lighting the feathery element. He 5aid:

Yes, it has been a bad winter on us. We have ploughed out show thirteen (set on a level, where we have never hard an inch before. We have averaged, I should say, abant eleven or twelve feat through the ents in the mountains. You see, we have three ranges of the Rockles and the Casandes, all west of Bozeman, and anous 199 miles of show. But, to the credit of ticaerd allamager Rollem, and the magnificent equipment of the road, we have not had one wrecked engine on the road, To begin with, the weather sayled is very thorough, operators being tequited to report every hour in a changing or threatening the first of the road, the same that the weather sayled in the road of the roa

The gentlemen stated that their visit here has no special significance, but is merely a periodical tour of the road.

REVIVAL MEETINGS.

The milder weather brought a larger congregation to the St. Paul M. E. church than had been present before during the continuchurch was crowded to its capacity. The singing was excellent, and moved the large audience to enthusiasm by its force and

Mr. Waber is a man of powerful voice and

april.

Mr. Weber is a man of powerful voice and a fine singer, too, without any of the thrills or screetchings so common with cultivated (1) singers nowadays.

Revs. Kummer, Adem Klippel and Cline were on the platform.

"liebold, I set before you an open door," was the preacher's theme. Mr. Weber said:

What if you should see a man crawing into the back window, what would you do? Why, you would get hold of the boother's on size of stars would and peal his head. Look out, you welved men, or you will be hit when you don't expect it.

"behald, I set before you an open door." An open door manus anothing if you don't expect it.

"behald, I set before you an open door." An open door manus anothing if you don't expect it.

"behald, I set before you an open door." An open door manus anothing if you don't why, you are the door "Boys Wanted." Yes, they want then, and they will sept them back to you bloated, debauched and filled with the deschallen shell, a man said to me once that he had been seeking Christ fifty years. I don't believe it. No man eyer sought Jesus without finding blin. I come in Jesus's name to ofter you this open door. Who will come? Do you want blin?

The attar was crowded from one side of

The alter was crowded from one side of the church to the other and many found AT CENTENARY M. E. CHURUH.

A correspondent writing from ! ast Port-

Contensty M. E. church of East Portland is at Contensy M. E. church of East Parthaul is at present in Joyling one of the greates, revivals core known in the listing one of the greates, revivals core known in the listing of the greatest content in the listing of the present of the listing of the listing of the listing of the bouse packed. On last Sunday evening the house was illest to fits atmost capacity, and many were not uble to get in. The pastor, Dr. J. W. Bushoing, formerly of Cludiungil, O., has given the congregations some agreeable surprises by this cloquent and soul-striving sormions and his orgatic-but successful method of conducting the meetings. Over a hundred souls have been reclaimed from the bondage of sin, and as many more have signified their determination to serve tied and source the apprise witness of their adoption. The meetings are increasing in hierest, and the leading members of the church are extended to the constraint of the control of Co. W. Beere has charge of the singing.

East Portland.

Special services will be held at the Eyanlical church Sunday morning and even-g. Professor W. C. Kantner, president of the Lafayette seminary, will preach in the morning and lecture in the evening at the church, in Stephens addition. In the afternoon, at 3 o'clock, he will preach in the Second ships in This best addition. ond church, in Tibbetts addition. This be-ing the regular seminary day of the Oregon conference, a fine programme will be given, Professor W. W. Dayls and wife will sing in the evening.

To morrow will be made a special day at the Ceutenary M. E. church. Class meeting will be held at 10 A. M. At 11 A. M. the will be held at 10 A. M. At 11 A. M. the pastor, Rev. J. W. Bushong, will deliver a discourse on the subject of "Mites." Class meeting again at 12.15 P. M., and Bunday school at 12.30 P. M. At 6 P. M. awared jublice will take place over another week of successful revival meetings. The day will close with a sermon from the pastor on the subject of "Wake Un and Get Up."

ST. DAVID'S CHURCH. The Rev. Mr. Donaldson, of Oregon City, will preach in St. David's church next Sunday morning and administer the holy communion. The rector, the Rey, John W. Sellwood, has been confined to the house with sickness since Christmas day. Services and Sanday school, however, are held in the church every Sunday morning as usual.

The Trade of Canada. The trade and navigation returns of Can-nda for 1889 prove that the United States is Canada's natural market. The aggregate trade for 1889 between Canada and the United States amounted to \$94,090,090, or 46 per cent, of the total trade of the Dominion. Exports to Great Britain amounted to \$38. 100,000, and to the United States, \$48,309,000, Imports from Great Britain amounted to \$42,300,000, and from the United States to \$50,500,000. As compared with 1878, trade with the United States has increased over 220,000,000, while with Great British it remains about the same. As compared with mains about the same. As compared with 1888, exports to the United States increased about \$1,000,000, while exports to Great Britain decreased nearly \$2,000,000. Imports from the United States increased \$2,000,000, and from Great Britain, \$1,000,000. There was a decinier in exports to France, Germany, Spain, Newfoundland, South America, and Othina and Jupan. Imports from Great Britain, United States, Germany, Spain, Holiand, Belgium, Newfoundland, the West Indies and South America show an increase. The balance of trade against Camada was \$32,000.000: The average rate of duty collected on British goods imported into Canada was \$22 per cent, whild the average duty leviced upon imports from the United States was only 14 per cent:

SEA OTTER HUNTING.

Graphic Description of an Industry on the Washington Coast.

THE LONELY PERCHOF THE HUNTER

Obtaining a Fur That is Even More Valuable Than That of the Beal-Kuch Depends Upon Charce for Success.

It is not generally known that some of the most expensive fur-producing inimals are killed off the coast of the new state of Mashinglon, and it is remarkable that the extent of territory where these spimals are taken so extremely limited, being only from Damon's point at the northern entrance to Gray's harbor up the coast to Point Green ville, a distance of about twenty four miles. The animal referred to is the sea ofter, the far of which is manufactured into the rabes of the potentutes and princes of the Old World

Unlike that of the seal, the fur of the sea otter requires no plucking of hair or coloring, in fact, the most valuable skins are 11, those which are specked thoughout with silver-tipped hair, and is known as the silver-tipped for, the addition of this hair adding 25 to 50 per cent, to the price of the

There are now several bunters engaged in there are now several numbers engaged to, stilling son ofters at the place referred to, and the modus operand of taking them was very interesting to and.

The hunters build for themselves defricks

about forty feat high by taking three slim poles or pieces of timber each about forty feet in length and, botting them securely together at one end for the top, they spread them about twenty-five feet spart at the bottom, giving the appearance of a huge tripod. These are set on the ocean beach, about midway between high and low tides, the foot of the poler being imbedded in the sand from two to three feet. The structure is then thoroughly braced and a ladder built

Is then thoroughly braced and a ladder built to the top by nulling pleces at convenient distances crossinge on the Inland.

About eighteen inches below the top of the tripod cross timbers are secured to the legs and upon these cross timbers a floor from four to five feet square is laid; and on the occumward and two adjoining sides walls are built up from three and a half to four feet in height. On the land side a door is constructed to allow the hunter ensyingess and egress to and from his 'crow's nest." On the top of the whood, which extends about eighteen tradices above the floor, a scut is constructed and around the inside of the wall a

egress to and from his "crow's nest." On the top of the tripod, which extends about eighteentiradics above the floor, a seat is constructed and around the inside of the wall a row of shelving is placed.

Aclow tide, when the wind is propitious, the hunter bies himself to his crow's nest, armed with a good pair of glasses, a Sharp's rifte, a lanch and, a little something to keep himself warm, and for six long, hours he scans the line, of the occan just outside of the breakers, where he most expects his game to appear. When the tide first begins to flood his range is about six hundred yards, but, as itruns in, the range was shortened to 200 or 300 yards. Even at these latter distances it requires close calculation to know just how to shoot to overcome the rise and fail of the occan-well, and the effect of the wind upon the bullets. It is said that not one out of 100 shots of the best marksmen is effective. When the tide is full the dorrick stands in the midst of the breakers and a land luber like myself feels a little squeamish looking down from the dizzy heights on the rolling waters below.

ing waters below. The shooting is generally done on a flood tide so the animal when killed will wash ashore, and even then it is sometimes three taree or four days after, one is killed before it is beached. Undoubtedly many other are killed and never do come ashore.

it is beached. Undoubtedly many other are tilled and never do come ashore.

Each hunter marks his bullets with a mark known to the other hunters, and when an other is found on the beach the first duty of the finder is to look for the bullet and ascertain wholes the rightful owner, for this sign is respected amongst the hunters as sucredly as marks and brands are amongst stockmen. When an otter comes ashore with no bullet in tilm, as frequently occurs, the bullet insying gone clean through the body, and no actice having been given, it is regarded as a "slick-ear" in stockmen? purlance and belongs to the finder.

Sometimes an otter, on receiving a death shot, sinks; but the hunter generally knows when he has hit his mark. If yo observing the water with his glasses, he can discern, even at the greater distances which they shoot, the coloring of the water from the blood of the animal; and if he does not come ashore on that tide, notice is at once given to the other hunters, who are then on the alert to find him. But I opine that beach-combers, in the shape of straithy Indians, get away with many an otter falled by the white hunters. I have had occasion many times to pass along the heach at daylight during the hunting season, but I always found the flat trucks of the siwash just ahead of me, printed these since last weigh tide.

The Indians hunt the sea otter in cances,

shead of anc, printed these since last title.

The Indians hant the sea ofter in cances, going out and country in through the surf, sometimes they go fitteen or twenty miles to sea and stey out several days. But when they hant along within a mile or two of the shore, then there is blood on the face of the moon, and the white hunter "waxeth wroth," for the Indian scarss away his game. When taken, the otter is skinned whole, "as it were, by cutting across the haunches and stripping the skin down the body and over the head. The skin is then turned, the fur in, and a heart shoved through it. It is then tightened by driving a wedge-shaped piece down on one side between the board and the skin, and another contrary wise on the other. All the grease is then carefully removed, and the skin is dried then carefully removed, and theatin is dried

and hid away rendy for the market.

An average skin is about five feet long by
twelve inches wide (double) or, when cut,
twenty-tour inches wide, and, in the hunnty-lour inches wide, and, in the hun-s hands, ts valued at from \$90 to \$120;

twenty-tour inches whee, and, in the hunter's hands, is valued at from \$00 to \$120;
but these petees leave a handsome margin
to the fur men who handle them. In
Russia, an overcout made from these same
ofter skius, brings from \$1000 to \$2000, while
in Chains even more is sometimes paid.

The season for killing sea otter extends
from May to October, and so scarce is this
game becoming that four a season is considered doing well by any hunter. In fact,
some pass the season without taking any.

The hunters have a rule amongst themselves—which is strictly observed—that only
one derrick can be allowed within a range—
i. e. about a half-mile, thus giving the whole
beach a regularity of appearance not elsewhere observable.

But the bunter's days in this vicinity are
numbered, for the selliers are pourling in
noon him and driving the other game for
back beyond his reach, and without it all
there is but a precarious living in his rifle for
him.

EAST SUBURB MATTERS. Proceedings of the Board of Fire Delegates Last Right. Death of Conneilman MaMahan-Beventh Day Advantist School to Ba Remared-News Notes About Towa-

The board of fire delegates held a special meeting in the city hull last night to examinee into the charges against Mr. Frank Payne. Alex Donaldson and James Spragna. John H. Hall, chairman, called the board to order, and announced the purpose for which the meeting was called:

the meeting was called.

The charges were then taken up as they speared on the minutes, and the charge against Mr. Spraguo appearing first, was taken up. Mr. Spraguo was called, and he pleaded not guilty to the charge of insubor-Engineer Meyer then made a statement.

Foreman Donaldson was also, called and made a statement of his connection with the matter. William Russell, assistant fore-man, then gave his evidence in the case. A man, then gave his evidence in the case. A statement was also made by Mr. Finger. He was followed by James Sprague.
Chief Engineer Meyer declined to argue the case and proferred the board should decide the matter. Mr. Sprague said he had made all the statement he enred to further than he did not recognize Mr. Doundson at the bine the order in aire was the

given.

The board then proceeded to ballot on the guilt or innocence of Mr. Sprague. The result was thint he was declared guilty unanimously, and by the same rote was reasured for his conduct at the fire. Mr. Sprague stated he considered the action just and would endeavor to obey the orders of the foreman in future.

Foreman Dona'dson, charged with striking James Sprague on the pinkt of the burn.

Foreman Dona'dson, charged with striking James Sprague on the night of the hurning of the Stephens addition, achoolkouse, pleaded not guilty. There being no evience against him the charge against him was dismissed and he was exonerated. On motion the board decided to meet next Friday night, at which time the churges against Mr. Frank Payne will be examined. Before adjourning the chief of the fire department secured the consent of the board to amend the charges against Mr. Payne by adding charges that Mr. Payne is guilty of disobedience and using unbecoming language to a superior.

BUTOOL TO BE REMOVED The Seventh Day Adventists (Fast Side)

have decided to remove their school, situ have decided to remove their school, situated in the northeastern part of the city, to Newberg, on the narrow gauge railroad, on the West Side. The school grounds condst of only four lots, and it is desired to secure land for innited agricultural purposes, so the students may exercise their nursies, as well as develop, their brains. At Newberg the land can be secured. The denomination will sell out the school property and crounds here, and expend about \$19,000 at Nowberg in buildings. The removal will take place at the end of the school year. DEATH OF COUNCILMAN M'MAHAN.

Last night at about 9 o'clock the death of Councilman M. J. McMahan took place at his residence in Holladay's addition. He had been slock for some weeks, but not seriously antil about ten days age. He has been a resident of East Portland for the past eleven years. Last June he was elected a member of the common council of this city. He leaves a wife and five children to mourn his loss. The city council with doubtless take such action in view of his death as may be proper.

Mrs. P. A. Wagner, wife of the real estate dealer, is in the care of a physician. 13 ht the care of a physician. Two horses were taken across the Columbia on the lee to Vancouver restreday.

Tom McMannus, on the Sundy road, has not brought in any strawberries since Christians.

The members of the street committee signed several street improvement contracts yesterday.

The Switchern Positions The Southern Pacific pay car has not yet arrived and some of the men at the shops are

church, on Sixth and P streets, on account of the weather.

Mr. John Anderson, engineer at The Dailes, is at Highland with his family and will remain until about May.

The city council extended the time when taxes will be delinquent to March 20, and the result is that city taxes are not coming in very rapidly.

Mr. William Kirkhope now has charge of the Y. M. C. A. recurs in place of 3fr. A. D. Soper, who will retire from the secretary-nip next month.

Mr. George Buffluyton, who was taken tells white taking the school census is improving, but it will be some time before he will be able to complete the enumeration.

Dwelling house—Hids will be received at Otto Kileman's cince for four separate contracts, curpentry, heickiper, plumbing and paintim. The owder reserves the right to reject any or all bids.

The city council declined to pass the ordinance increasing the salary remains at \$70 a month. This seems riddenicusly small for a bridge builder and a man of experience in street matters.

PETTER THAN CORNER LOTS.

GETTINE HIME

Actual Leavening Power of Baking Powders, Illustrated From Chemical Tests by Messrs. Thos. Price & Son, Analysts, San Francisco.

The following chart truthfully illustrates the comparative strength of the baking powders named. Consumers will find it instructive as to the most eco nomical baking powder to use. There is nothing bogus or anonymous about this illustration; it is not made up to deceive the reader from fictitious names and imaginary lines, but is constructed upon the basis of actual analyses, made by the most prominent and responsible analytical chemists upon the Pacific coast, from powders bought by themselves from San Francisco grocers:

Golden Gate

STATE ANALYSTS REPORT THE ROYAL BAKING POWDER SUPERIOR TO ANY OTHER.

"The Royal Baking Powder fulfills all requirements which the public can make of a baking powder. For purity and care in proparation it equals any in the market, and our test shows that it has greater power than any of which we have Prof. Chemistry University of California, and State Analyst.

"From central analysis made by me, I pronounce the Royal Baking Powder to be the strongest and purest baking powder before the public." W. T. WENZELL.

Prof. Chemistry College of Pharmacy, University of California, State Board of Horticulture, clo.

161-163 Third St., Cor. Morrison. BAZAR PATTERNS.

This well known and reliable specialist treats nervous, chronic and private diseases, including lost manhood; also blood and skin diseases which result in swellings and sores. He treats successfully the effects of self abuse, which left unchecked, causes loss of memory, vitailty, softening of the spine and brain; heart disease, consumption, morbid despondency, bordering on insanity. He removes deformities of all kinds. Ho cures all diseases of women, restoring sexual desire. Dr. Cole is master of all diseases. He is the grantest physician on the American continent. As a surgeon be has no equal, His French method of treating private diseases far excels all others. Rooms private. Consultation free and strictly confidential Terms reasonable. Patients treated at home. Correspondence solicited. Send 10 cents for pamphlet.

DR. A. L. COLE.

Head Physician and Chief Surgeon Portland Surgical and Medical Dispensary, 132 and 134 Third, cor. Alder, Portland, Oregon.

evening prevented many from attending the "Social Science" lecture, but those who did were amply repaid. The subject of workingmen's clubs was discussed, and also of coffee houses, and the lecture showed breadth of view and experience in every paragraph. He deprecated bring ng to this work of the social uplifting of workingmen any atmosphere of patronage or goodylsm, and showed how practical and businesslike a proceeding it may be to successfully organize and onlist the co-operation and sympathy of the workingman for his own interests and recreation, and the bettering of his condition. Plutarch Lewis, who was arrested at Reding, Cal., about three months ago, on a barge of baving robbed the mail between dition.

All who heard Mr. Cole were impressed with the directness and simplicity of his facts, and these facts and experiences all point to the needin our own community for efforts to truly aniesiorate and up his hard work from injuries and descorations. It is encouraging to note the tone of sympathy and natural justice in lectures like this, and it would have been a help to any trade organization or union to have listened to the many and contial presentation of views on

ganization or union to have listened to the manly and cordiel presentation of views on the industrial situation, and human methods of reconciling it. The next lecture is by Dr. Boma J. Weity, on "Emergencies," January 29. JUDGE BARIN WILL MAVE TO LEAVE. was supposed when Judge Sabin came to hold court for Judge Deady that he Heating of the Board of Directors of the P. V. V. F. B. A. the Portland Veteran Volunteer Firemen's Benevolent Association, met at the rooms of the association, Tuylor and First streets, Thursday evening, and organized by the ringrady evening, and organized by me election of W. H. D. Joyce president, and W. A. Sewell, secretary. The board draw lote for the long and short terms, three for two years, three for one, year, and three for three years. The members of the board are: Ben L. Norden, M. M. Lucas, John T.

Mrs. Hattle Reed states that she has no ntention of abandoning the prosecution of

promise of success. If their calculations are correct the damage will not be over \$2000. The steamer is old and could have been bought for less than \$10,000. There is no doubt, it is said, but that she struck'd snug, arthough the circumstances of her sinking were almost identical with those surrounding the socident which occurred to the Union Pacific's wharftont some months ago. The wharfboot was tied up close to the incline, and when the tide went down the outside of the boot sunk deeper than the side next to the incline, which was held up by the ropus, hepor the hold filled with water. dexander Armstrong, James Keefer, s. Armstrong, and John White, charged h being drunk, were fined \$5 each by
